

Rodney Richardson applied for a Special Use Permit to put a cell phone tower on residential property.

This notice was placed 1/4 mile off Long Hollow Rd, NOT in general public view.

189' tall tower would be less than 1000' from existing residential homes, at Catoosa & Walker county line.

How tall would the tower be?

- tower height 180' with 9' antenna mast = 189'
- tower base would be on a ridge at 960' elevation (150' - 200' above surrounding land)
- Facilities would have 100' square footprint on Watoosa Ridge (Napier Ridge)

Visual Impact

The tower would be less than 700' from the nearest existing residential homes.

The tower would be less than 1000' from other neighborhoods.

The tower would be visible from Chickamauga & Battlefield, Rock Spring, Ringgold, Lookout and surrounding areas.

A Cell Tower Would:

- Be a visual blight to the surrounding area
- Affect property values of all real estate and homes in the area
- Be located in a residential area, 700' from nearest homes
- Add more clutter to an already unkempt property
- Be a nuisance to neighbors
- Strain a privately maintained county road
