I oppose the communications tower (cell tower) proposed to be built on Watoosa Ridge (Watoosa Trail), on property adjacent to the Walker/Catoosa county (Georgia) line, near Long Hollow Road.

I feel the tower is not appropriate for a residential area, that it is too close to existing residences, that it will be a visual blight on the neighboring area, and that it will decrease the values of area real estate and homes.

I ask the Catoosa County Commission and Catoosa County Planning and Zoning Office to deny and reject the Application for Special Use Permit, Case # 1140-14, filed by Rodney Richardson, applicant.

Thank you for your attention in consideration of this important matter.
